PRASERT NUANNIM

Summary

Full-Stack Developer with a **System Administration** background in an HDD component manufacturing environment, experienced in industrial IoT, AI-powered **Computer Vision** for automated quality inspection, infrastructure management, and scalable web application development.

Employment History

IT Support & IoT Development at Belton Industrial (Thailand) Limited
MAY 2013 — JUL 2024

- Led the **installation, configuration, and lifecycle management** of infrastructure, networks, and endpoint systems in office and manufacturing environments, ensuring high availability and reliability.
- Diagnosed and resolved **complex hardware, network, and infrastructure issues**, minimizing downtime and production impact.
- Collaborated with **IT Infrastructure and Engineering teams** to perform root-cause analysis and resolve cross-system and production-critical issues.
- Designed and implemented a **secure API domain and organization-wide Wi-Fi architecture** to support industrial IoT and factory data communication.
- Develop **end-to-end Industrial IoT and data solutions**, including **MySQL-based raw data storage, OEE calculations, and full-stack dashboards** for real-time and historical operational insights.
- **Integrated camera-based AI** (computer vision) solutions to detect and classify NG (non-good) components in production processes, supporting automated quality inspection and early defect identification.

Full Stack at Genovation Co., Ltd
SEP 2024 — Present

- Developed **front-end and back-end** web applications for hospitals and veterinary clinics in collaboration with cross-functional teams, utilizing **Next.js, MUI, Sequelize, PostgreSQL** and deployed applications on AWS using Docker.
- Developed **SVG-based animations** and data visualizations, integrating assets created with **Adobe Illustrator** into modern web applications.

Education

Bachelor of Technology (Internet Technology) at Phuket Rajabhat University, Phuket
JUNE 2009 — JUNE 2013

Courses

- React-Next.JS14 Framework at CODE MOBILES CO.,LTD
NOVEMBER 2023 — JUNE 2024
- React Type Script at Coding Consultants (Thailand) Co.,Ltd
NOVEMBER 2022 — FEBRUARY 2023
- Lean IoT Plan Management and Execution: LIPE at Thai-German Institute
MARCH 2022 — MARCH 2022
- Reac Fundamentals at Babel Coder
JANUARY 2022 — MARCH 2022

Contact

Skills

- JavaScript, Type Script
- SQL
- C/C++
- Python

Tech Stack

- ReactJs, Next.Js
- Redux Toolkit
- Tailwind CSS, MUI
- Chart.Js
- Node.Js
- Python, Arduino
- MySql, MongoDB, Postgresql
- Prisma, Sequelize

Portfolio
